

AWS ASSOCIATE

Learn | Research | Innovate

Career Guidance from Cyber Security Expert : Mohit Yadav

COURSE DESCRIPTION

Architecting on AWS is designed to build the foundations of IT infrastructure on AWS. This course will help architects in optimizing the usage of AWS cloud by getting to know about AWS services and how these services complement the cloud-based solutions. Architectural solutions usually differ for different industries, sizes of businesses, and types of apps involved, and AWS provides the best cloud practices and designs for helping students think about the entire process of architecture. This course includes case studies to give them real-time problems exposure and let them know the approach they should follow. Hands-on experience is given to build a variety of infrastructures.

AWS Associate Course Contents

- Module 01: Design Resilient Architectures
- Module 02: Design High-Performing Architectures
- Module 03: Design Secure Applications and Architectures
- Module 04: Design Cost-Optimized Architectures

Course Highlights

Course Duration :
60 Hours

Language :
Hindi | English

Delivery Methods :
Classroom Training |
Online Training

Duration of Program

- > 30 Days (2 Hours per Day)
- > 15 Days (4 Hours per Day)
- > 12 Days (5 Hours per Day)
- > 5 Days (12 Hours per Day)

Complete Study material and required Software & certification will be provided during the course.

WHAT CRAW SECURITY PROVIDES

We will provide you with the best curriculum with in-depth information possessing industrial secrets and experienced facts from our well-qualified and experienced teaching faculties and mentors.
